Introduction

Document control

Field	Value
Purpose	List and describe the public downloadable document set for the EDGE/DM website.
Audience	Website administrators, public stakeholders and participant-facing communications teams.
Classification	Public downloadable document
Final pilot assumption	The document describes the target/final EDGE/DM pilot operating model and deliberately omits implementation-progress indicators.
Clinical boundary	EDGE/DM documentation must not be interpreted as clinical decision support, medical diagnosis or regulatory clearance.

This index describes the public DOCX documents generated for download from the EDGE/DM website. The set is designed to support different stakeholder needs without exposing confidential technical or legal artefacts.

Document set

Downloadable document set

Document	Audience	Primary purpose
Whitepaper	All stakeholders	Explain EDGE/DM vision, value, governance and final pilot model.
